

# Motion Detectors

Professional Intruder Alarm Equipment

**100 Series**  
**200 Series**  
**300 Series**

Exceptional Design  
and Performance

## Key Features

Multi Height Optics (1.8m to 3.1m)

15 Metre Range

Sealed Optics

True Creep Zones

Slide to Fit Front Cover

Interchangeable Cartridges

Programmable EOL Resistors<sup>†</sup>

Remote LED Control

Digital Signal Processing<sup>†</sup>

Temperature Compensation

RFI Immunity up to 2.7GHz

Lid, Screw and Wall Tamper<sup>†</sup>

Optional Grade 3 Tamper Proof Bracket<sup>†</sup>

<sup>†</sup>Patent Pending

Designed and Manufactured  
in the United Kingdom

All our detectors have been expertly designed and rigorously tested to provide you with the most reliable security solution for your home.

## Key Features

### Sealed Optics

Sealed optics prevent bugs and dust from entering into the detector housing to reduce false alarms and maximise reliability.

### Pet Friendly

The Pet Friendly series of detectors can intelligently distinguish between an animal and a human to provide a pet friendly option for your home.
